Using the Wilton way to cut a round cake

This method works for our 8", 10", and 12" cakes.

Starting about 2 inches from the outer edge of your cake, cut a round circle.

Slice 1-2 inch wide sections and serve.

(1 inch sections for wedding service & 1.5-2 inch sections for party service)

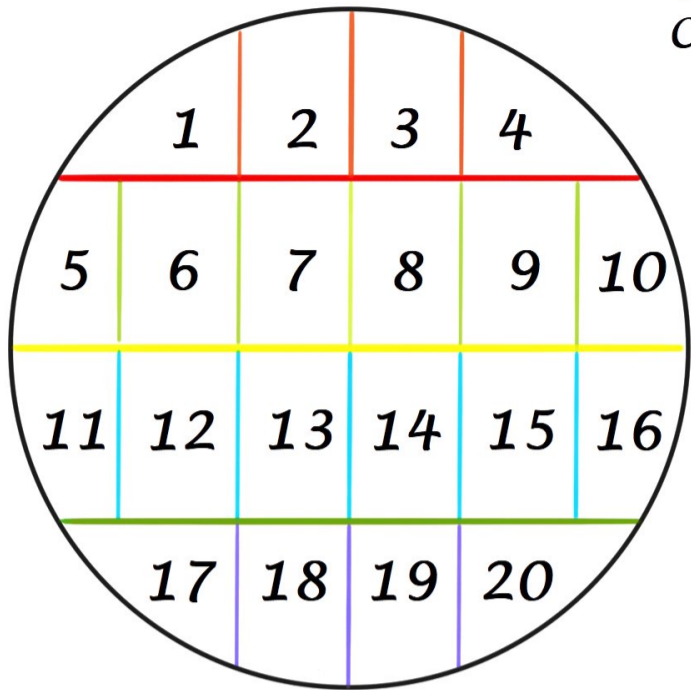

8" & 10" cakes will require cutting 1 circle, while a 12" will require cutting a second circle another 2" in.

Slice the remaining circle as shown in slices the width of your choice.
